"His work rises at once to an eminent place among studies of great nations and their institutions. It is, so far as America goes, a work unique in scope, spirit, and knowledge. There is nothing like it anywhere extant, nothing that approaches it. . . . Every thoughtful American will read it, and will long hold in grateful remembrance its author's name."—*New York Times.*

"As we can hardly conceive of any influence more likely to help in forming a right judgment on these momentous subjects than that of so wise, so temperate, and so able a discussion of American institutions as Prof. Bryce has here given us, we repeat the wish that it may find its way to the library of every patriotic citizen, and be studied with earnest care."—*New York Evening Post* (second notice).

It is eminently a book worth reading."—*Academy.*

PUBLIC FINANCE.

By C. F. BASTABLE, LL.D., Professor of Political Economy in the University of Dublin. 8vo. $4.00.

"Is likely to be a standard work. Its literary merit, its divisions and general scope, its comprehensiveness and avoidance of undue regard to the controversies which are only of to-day, are but the secondary though essential features of such a work. The higher qualities of a philosophical and practical method of treatment, and a transparent willingness to adjust the balance of evidence, are not wanting. It will be welcomed by students of political science everywhere, and not a few men more or less prominent in political or municipal life will find instruction and warning in its pages."—*Scotsman.*

By HENRY JEPHSON. Large crown 8vo. 2 vols. $4.00.

"Dr. Henry Jephson has struck a new vein in political history, and has worked it certainly with diligence, and we think his readers will say with success.
